

MaTh Spoons

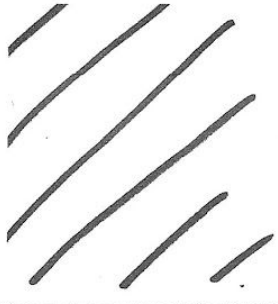

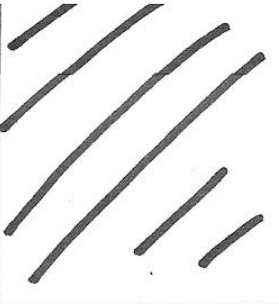

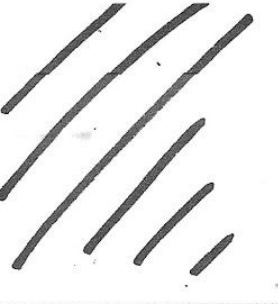

Created by Hanna Fleeman
For 2 to 6 Players

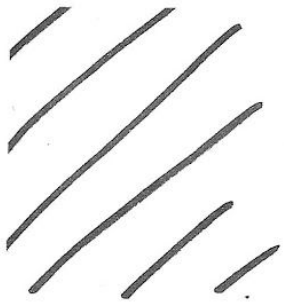

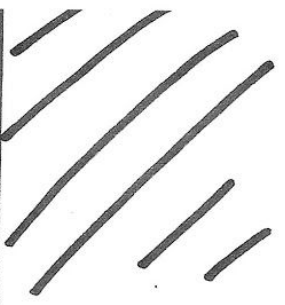

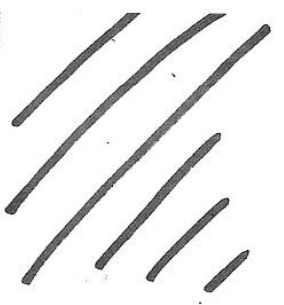

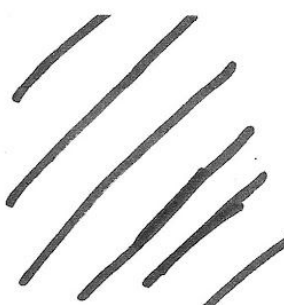

Materials:

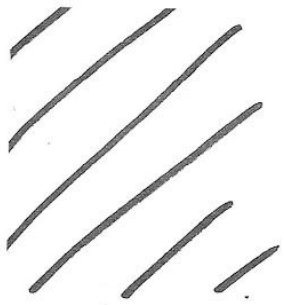

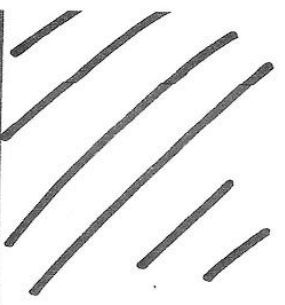

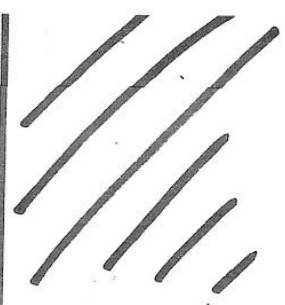

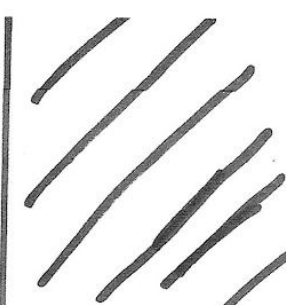

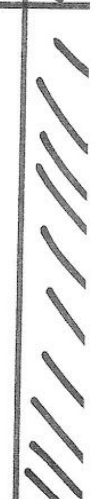

- Printed Number Cards
- Spoons (1 less than the number of players)

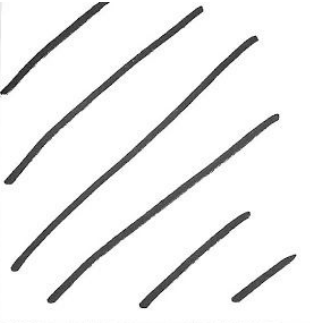

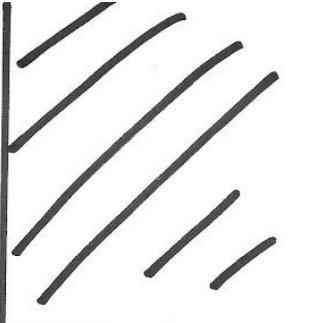

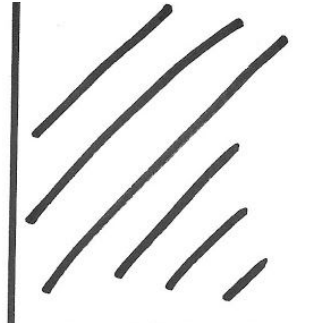

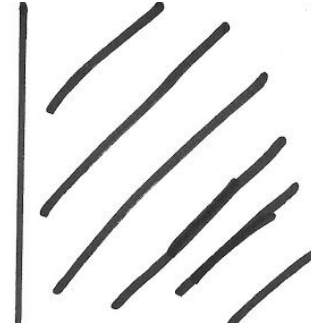

How to Play:

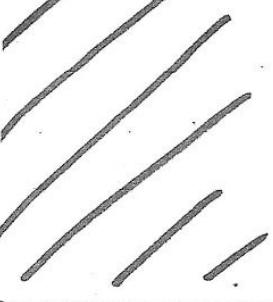

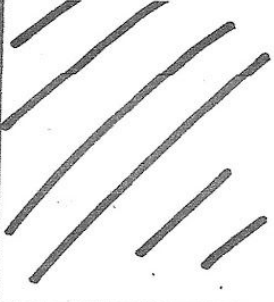

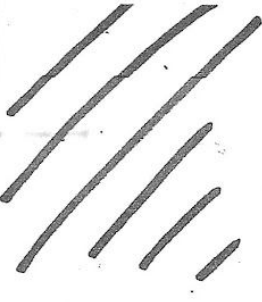

1. Place the spoons in the middle of all players.
2. Deal out 4 cards to each player.
3. The Dealer should take the leftover stack and place it next to them.
4. The goal is to get all four cards of equal value.
5. The Dealer starts a rotation of cards by picking up cards from the deck, looking at it to match, and passing along.
6. Each player should only have 4 cards in their hand at one time. (So if you come across a card you need, switch it with one you do not need in your hand and pass along).
7. The first person to get a set of 4 equal value cards should grab a spoon from the middle, and from then on the spoons are free game (so try to be sneaky!)
8. The person who does not have a spoon at the end of the game loses.
